## Shipbuilding industry

We supply rods and brackets made with different resins:

- **Isophthalic marine resin**
- **Vinyl ester resin**
- **Carbon fibre**

Our specialists will explain our range of dimensions and colours.

### ADVANTAGES:

- Non-slip
- Waterproof
- Shock-resistant
- Corrosion-resistant
- Chemical-resistant
- UV resistant
- Dielectric
- Easy-to-install

### Curved profiles

We specialise in **curved profiles** for the automotive and shipbuilding sectors.

## Aviation industry

### U-shaped profiles for windows

Capable of withstanding different temperatures and extreme conditions, making it the perfect substitute for heavier and less resistant aluminium.

## Rail Industry

For the rail industry, we have **reinforced profiles** that are very resistant to heat, smoke and fire with improved consistency.

**External and internal panels** for trains providing maximum space, comfort and safety for passengers.

## Automotive industry

**Profiles** used as internal pieces in buses and car roofs.

Our speciality in **curved profiles** gives us a major competitive advantage.
